

INVITE EDITORS TO VISIT CITY

Chamber of Commerce Moves to
Bring National Press Asso-
ciation Here.

PLAN OF ENTERTAINMENT

Attendance This Year Will Prob-
ably Be Larger Than Ever
Before.

The Chamber of Commerce special committee on convention held an important meeting yesterday afternoon to take action in regard to inviting the National Press Association to visit Richmond during its annual session. Mr. L. O. Miller is chairman of the committee, and representatives of the Richmond newspapers and of the committee on advertising were invited to meet with the committee on convention. Those present were Messrs. Miller, Murphy, McKee, Copeland, Wood, Sharp, Meek, Williams, Murrell and Tucker.

Program Arranged.

Mr. W. S. Copeland explained the object of the meeting, and explained the nature and purpose of the National Editorial Association, of which he is a director. He read letters from the secretary of the association, stating that the National Editorial Press Association will meet with the Virginia Press Association at the Jamestown Exposition during the week beginning June 10th. President Roosevelt has accepted an invitation to address the editors, and the following program has been arranged by the authorities of the exposition:

Monday, June 10.—Following reception and address by President Roosevelt, review of warships assembled in Hampton Roads.

Tuesday, June 11.—Afternoon and evening, warship exhibits.
Wednesday, June 12.—Observation trip over Norfolk and Southern Railroad to Virginia Beach, the famous Atlantic seaboard summer resort; lunch in surf, after which party will be taken to Henry, where first English settlers landed in America; after viewing famous lights and old light-house, to the station, etc. N. E. A. will be entertained at clam bake, and return to Exposition grounds.

Thursday, June 13.—Trip to Jamestown Island, where the first English settlement in America was consummated; viewing old Jamestown ruins and historic homes on James River to Hampton Roads; return by moonlight.
Friday, June 14.—Trip to view the United States Navy-Yard at Portsmouth; famous shipbuilding plant at Newport News, passing the scene of the battle between the Monitor and the Merrimack; Hampton Institute, Old Point Comfort and Fort Monroe, the most formidable fortification in the United States; return to the Exposition grounds.

It was suggested that the members of the association be invited to spend Saturday in Richmond as the guests of the Chamber of Commerce. Mr. Copeland was authorized to telegraph this invitation to the secretary of the association. In order that the program in Richmond might be included in the printed booklet which will be circulated by the secretary among the members of the body.

To Entertain Them.

A general discussion followed as to ways and means of entertaining the visitors, and it was the consensus of opinion that no fund for advertising Richmond could be spent to better advantage than in showing the editorial writers of the country over the city and sending them home with a good opinion of the capital, and with a desire to write some graceful notices about it and its industries. Attention was called to the fact that the members of the association come from all parts of the country, the organization being strong in the Middle West and on the Pacific slope. The secretary of the association writes that he has assurances that on account of the attractions of the Jamestown Exposition the attendance will be quite large this year.

It was finally concluded that the committee on advertising set aside \$500, and that the city be asked to give a similar amount out of its entertaining fund. The papers of the city will no doubt, also contribute toward entertaining the editors, and a sufficient sum can thus be secured to take care of the visitors in suitable style. A committee of five was appointed to have entire charge of the arrangements for entertaining the body. This committee consists of Mr. L. O. Miller, Mr. W. S. Copeland and Mayor Carlton McCarthy, these three to appoint two more.

Mr. W. S. Meek offered the suggestion that several suitable electrotypes of views of the city be made up in sufficient quantities and a set presented to each of the visitors with some well-prepared literature about the city.

Newspaper Week.
The National Editorial Association is
composed of the editors of the lead-
ing papers and publications in the
United States. Representatives of the
Canadian Press will also be at the
gathering.

The entertainment in Richmond,
which will occupy the greater part
of the day, will no doubt include a
drive about the city, a luncheon, and
a visit to some of the larger manu-
facturing plants and other places of
public interest. The week in which
the editors are at Norfolk has been
designated "Newspaper Week" by the
exposition authorities, and Richmond
will come in for its part in the hospi-

vices in all of the churches of the city,

Richmond, forming at 11:30 A. M. and

eral Stith Bolling, commanding the
Virginia Division, U. C. V., will be

The Richmond Young Men's Christian

the Young Man Safe?" The meetings

character, and will have reference to
the anniversary, certain statistical re-
ports and plans being outlined at each.
Governor Glenn has consented to ad-
dress the principal meeting of this
series, which will be held in Centenary
Methodist Church at 8 P. M. At all
five of the meetings the theme dis-
cussed will be "Work for Young Men."
The Y. M. C. A. will be represented by
the "Value."

Notable Work Done.

The year just closed has in many
respects been the most successful in
the history of the Richmond Associa-
tion, embracing as it does the move-
ment for a new building, in which
\$227,000 was raised in twenty days, by
a campaign that broke all records for
energy, determination and results.

The following report of the finan-
cial side of the year's work, in which
the new-building fund is not counted,
will be of interest:
Receipts and expenditures, year end-
ing February 28, 1907:

Receipts—Balance from previous
year, \$206.08; sustaining memberships,
\$650; full memberships, \$4,952.50; lim-
ited memberships, \$366; junior and boy
memberships, \$508; lockers, use of hall,
tobacco, etc., \$961.60; educational class
fees, supplies, \$495.63; contributing
memberships and appropriation by
board of directors, \$5,733.49; total, \$13-
588.30.

—General secretary and assistants,
\$4,511.51; printing, stationery, postage,
telegrams, etc., \$810.26; interest, \$315.11;

ventions, conferences, taxes and inci-
dentals, \$254.91; total, \$5,966.79.

588.30.

Secretary's Report.
Secretary McKee's annual report
contains the following paragraphs:
"The daily average attendance at the
building is estimated at 468, including
all features and gatherings. The most
important work, the hand-to-hand con-
tact with men and boys in their hour
of need, the work of encouraging,
stimulating and helping—cannot be put
into figures, nor can the story be told
in type. It is too sacred for the pub-
lic eye. Men and boys are counseled
with in their hour of need. Spiritual
help is given, employment secured,
boarding-houses found and boys who
have started wrong are gotten hold of
and saved from becoming wrecks.

As important as all of this, we be-
lieve, of equal importance, is the con-
stant, everyday aggressive work of
prevention. Better save a boy from
disgrace than to rescue him after he
has come to disgrace.

No other year has given so much
cause for thanksgiving. The work has
been strong, the workers loyal. Many
young men and boys have been helped
spiritually, not a few have confessed
Jesus Christ as their personal Savior,
and our new building campaign was
the most remarkable in history, \$227-
000 being pledged in fifteen days. The
responsibility for the proper use of
this money, and the great work ahead
calls for renewed consecration and
earnest prayer.

We have in Richmond the Central
Association, with over 1,200 members;
the Main Street Station Railroad De-
partment, with a large membership;
the Medical College of Virginia and
University of Medicine departments;
also the Virginia Passenger and
Power Street Railway Association and
Richmond College Association; and two
colored associations, the City and the
Virginia Union University Association;
the combined membership of all asso-
ciations and departments being fully
5,500.

ganized, 1854, in St. Paul's Episcopal

OWNERSHIP OF ROADS NOT PLANK

Bryan's Platform Will Not Con-
tain Such a Pro-
vision.

HALT NAVAL EXTENSIONS

That Is Considered as a Likely
Feature of Democratic
Instrument.

OMAHA, NEB., April 20.—The Demo-
cratic national platform of 1908, if W. J.
Bryan controls the convention, will not
demand absolute government ownership
of the railroads. This was authoritatively
announced yesterday by James C. Dah-
lman, national committeeman from Neb-
raska. The statement is in the nature
of an official announcement for the reason
that Mr. Dahlman is in close touch with
Mr. Bryan, and recently has been in
conference with him over the plans and
policies of the approaching campaign.

From the same source it is stated that
tariff reform will again become a domi-
nant feature of the platform.

The platform, according to Mr. Dah-
lman, already has been mapped out, and
will contain some radical changes from
the document adopted in 1904. While
Dahlman was not able to go into minute
details, he says the prominent planks in
Mr. Bryan's declaration of principles will
concern trusts, the tariff, State regula-
tion and money, the railroad ownership
plank, of course, being conspicuous by
its absence.

Constitutional guarantees will have
strong endorsement and the acceptance of
campaign contributions from trusts and
large corporations will receive severe con-
demnation.

The platform will define the necessity
for and proper use of money for running
campaigns. Usurpation of power by the
president also will be made a strong point
and the convention will be asked to de-
clare that President Roosevelt is to be
respected as well as in the matter of accept-
ing or approving campaign contributions
has overstepped true Democratic prin-
ciples.

Government economies will receive the
usual attention and a halt will be de-
clared in naval extensions. It will be
declared that the vast sums spent on
armament may be much better employed
in irrigating the plains of the West. De-
velopment of the problem of obtaining heat
from ashes, several well known chemists
set to work to discover the formula.
They were successful, and here it is:

Burn a mixture containing one
part coal and three parts ashes, and
a better fuel than pure coal is ob-
tained. The ashes of anthracite
could not be used as do those of
bituminous coal.

When placed upon a burning fire,
the mixture will fuse into a black
like mass and deposit but little
residue.

[Special to The Times-Dispatch.]
